ADAPTING TO A NEW CULTURE

Culture shock is a very real psychological process everyone experiences upon arrival in a new country. There are four stages of culture shock and they affect everyone differently. The key to coping with culture shock is to understand the stages and that the feelings associated with each one is normal. The good news is that all students get past these feelings and end up having a wonderful experience.

- **THE HONEYMOON STAGE**

When students first arrive in Canada everything that is new and different is also wonderful and interesting. This is the only stage most tourists experience because they never have to settle into a new culture. This stage can last anywhere from a week to a month or more.

- **THE DISTRESS STAGE**

This is the stage where the reality of being abroad for a longer period of time hits home. Cultural differences that you found interesting earlier in your stay can become taxing. You may feel confused, isolated and/or overwhelmed during this stage. This stage can be exhausting, particularly if learning English is proving a challenge as well.

- **THE TRANSITION STAGE**

This is the most important stage to understand. During this stage, some students become angry or frustrated with Canadian life. They constantly compare it to their home culture and begin to lament the differences. Don't worry, this is normal. The key is to recognize the symptoms of this stage and not give in to them.

- **THE INTEGRATION STAGE**

Cultural challenges and language issues begin to subside as students accept and embrace the differences that previously frustrated them. This is the stage when your study abroad experience becomes everything you hoped it would be; you feel confident and relaxed in your community, your school and your homestay.

While it is important to be aware of the stages listed above, it is equally important to point out that not everyone goes through every stage. Some students arrive and are immediately homesick. Others never experience the frustration of the transition stage and skip quickly to the integration stage. The key is to be aware of what is happening and to remember that people are available to help you like your homestay coordinator, homestay family, school counselor, International Education school based coordinator and our office.

AROUND THE HOME AND COMMUNITY

Family Involvement:

Your homestay is your “home away from home”. We encourage you to participate in all family functions.

Coquitlam Community

Coquitlam is the third largest school district in British Columbia with 31,000 students in 70 schools. The district includes the cities of Coquitlam, Port Moody and Port Coquitlam, and the villages of Belcarra and Anmore. The total population in the Tri-Cities area is 210,000 spread over 200 square kilometers.

We are only 30 minutes from downtown Vancouver by car or Sky Train. Two major universities, Simon Fraser University and the University of British Columbia, are both a short commute from Coquitlam. The world class Whistler Mountain ski resort, the host site of the 2010 Winter Olympic Games, is less than 2 hours away by car. We enjoy a mild climate with a safe environment and an affluent lifestyle. Nestled in the mountains and edged by the Pacific Ocean and Fraser River, Coquitlam truly is an ideal setting for international students with excellent year-round recreation, shopping and ethnic dining.

Recreational Teams & Activities

Each school offers a variety of extra-curricular activities and clubs including **drama, band, choir, yearbook, skiing, chess** and athletic activities such as **field hockey, mountain biking, golf, tennis, basketball, soccer, wrestling, swimming, track & field** and many others as well. Students are encouraged to join in these extra-curricular activities to experience a feeling of involvement, as this is an excellent way to improve language skills in a friendly environment. There are many community sports and performing arts programs available to students within the Coquitlam School District area.

TIPS FOR STUDYING IN COQUITLAM:

Don't be afraid to ask questions if you don't understand. Teachers expect to be questioned. Make sure you understand the teacher's instructions regarding any assignments. If you're quiet, that will be taken as a sign of understanding. Teachers are usually available before and after school for questions and extra help.

Be on time for class. If you can't attend or be on time, notify the school in advance and explain the reason. If you miss classes, see the teacher the next day to find out what was missed.

You will probably find the classes more informal in Canada. You will also have to organize your own time since you won't be given a schedule to cover non-class time. Plan your time carefully, balance school work, English practice, and relaxation.

Hand in all assignments on the day they are due. If you are not able to finish your assignment on time, talk to your teacher before it is due. If you miss any assignments/quiz/exam, see the teacher and ask if there is any way to make up.

Organize your notes. Keep all handouts from your teachers.

- 911 calls are free from any phone (pay-phone/cellular, etc.)
